Ostomy Care
Urology & Continence Care
Wound & Skin Care

Coloplast develops products and services that make life easier for people with very personal and private medical conditions. Working closely with the people who use our products, we create solutions that are sensitive to their special needs. We call this intimate healthcare. Our business includes ostomy care, urology and continence care and wound and skin care. We operate globally and employ more than 7,000 people.

SpeediCath® Compact Plus

Different needs. Different choices

SpeediCath® Compact. Now in two lengths for one superior fit

SpeediCath Compact is proven to fit the anatomy of women¹. However, some women may feel they need a longer catheter. Therefore, we introduce SpeediCath Compact Plus – a compact catheter almost double the length of the female urethra.

- SpeediCath Compact is the optimal choice for safety and discretion. With its 7 cm catheter it is designed to fit the length of the female urethra¹.
- SpeediCath Compact Plus with its 2 extra cm is the choice for women looking for a longer compact catheter.

SpeediCath® Compact for optimal safety and comfort

SpeediCath Compact catheters are designed to enable effective bladder drainage while ensuring maximum safety and comfort.

- Bladder drainage at least as efficient as conventional catheters¹
- Easy-grip handle for more hygienic catheterisation
- Polished coated eyelets
- Minimal friction and discomfort²
- 100% free from PVC and phthalates

Hydrophilic coated catheters for intermittent catheterisation reduce urethral micro trauma: a prospective, randomised, participant-blinded, cross-over study of three different types of catheters. European Urology 2005, Vol. 48 (6) p. 978-983.

The choice for freedom and confidence

The SpeediBag™ Compact urine bag increases the benefits of the SpeediCath Compact catheters by making it possible to catheterise almost anywhere.

- Together with the bag, SpeediCath Compact can be used almost anywhere, anytime
- The bag is discreetly packaged in line with SpeediCath Compact
- After use SpeediBag Compact can be sealed and transported safely
- Both catheter and bag can be disposed of with ordinary waste
